**Fully Activate Your
PowerShift Smart Thermostat**

[Sample Sample]

Activation Code: **NV731X**

Call: **877-413-6771**

Welcome to your new home!

The thermostat installed in your new home is a PowerShift Smart Thermostat provided by NV Energy, but is currently not fully activated. Simply call us today to schedule an activation appointment. In just one brief visit, a PowerShift Energy Advisor will come to your home and fully activate your thermostat, saving you up to \$100 on your energy bill every year.

Once your Smart Thermostat is fully activated and linked to your NV Energy MyAccount, you can begin using its many features, including:

- ▶ Adjusting the temperature from any smartphone or mobile device using our app or website
- ▶ Creating custom heating and cooling schedules for when you're home or away
- ▶ Teaching it to automatically adjust the temperature based on your preferences
- ▶ Participating in Community Energy Events which help save energy, money and the environment

You won't be able to use all the features of your Smart Thermostat until it is activated, and with savings on the line, why wait? Call NV Energy today at **877-413-6771** to schedule your Smart Thermostat activation appointment today.

P.S. Turn this page over for another FREE money- and energy-saving opportunity from PowerShift.
